

Drawings:

Replacement sheets have been provided for FIGS. 1 and 7, per Examiner's suggestion to correct typographical errors.

With respect to the use of the term "prior art", the Applicant is not aware of any requirements in the MPEP or the related statutes or case law that require the use of such exact label, instead of "related art" which the Applicant finds more appropriate in this instance.

MPEP Section 608.02(g) to which the Examiner cites, also does not mandate the use of the term "prior art" but offers it as a suggestion. The Examiner is respectfully requested to support his contention for the suggested change, or otherwise withdraw the respective objection.
